By **WF** Education Group

Discover Everna™ in our dedicated brochure. At WF, you can take the design of your perfect library or LRC into your own hands! Explore our ranges of static and mobile shelving, dens and display furniture. Whether you have a small space, a zone or are looking to reconfigure your entire library, we have something perfect for every application.

Static shelving

Choose from our range of Explore shelving options to display your book stock the way you want. You can then link these bays to create runs of straight shelving, shapes, or zones.

Mobile shelving

With mobile bookshelves, you can easily reorganise your collection to optimise browsing experiences, showcase new arrivals, or highlight thematic displays.

Integrated dens

Integrate window or cave-like dens within runs of static shelving or select our NEW mobile solo and duo dens. Mobile dens look great on their own or they can integrate seamlessly with our mobile Motion shelving system to create impactful and cosy spaces.

Discovery book browsers

With a choice of colour, shape, and size, you can arrange Everna™ Discovery book browsers and kinderboxes as you wish; the only limit is your imagination.

Ah the popular bean bag. So simple yet so crucial for creating cosy nooks to curl up with a book. It remains a key element in creating spaces dedicated to teenagers. Their enveloping shape has always been popular with younger children, but it is also popular with older children. They use beanbags to settle down and “read” on the spot, with the seats informal nature encouraging them to lounge and get comfortable. We know that if teenagers are comfortable, they will stay and read longer. Beanbags are also a useful and economic way to add a splash of colour to your library space.
